

The tables below indicate the minimum software versions supported by UITS for PeopleSoft HCM 9.0, Identity Management (IdM) and UPK online training. These are recommended minimum requirements. Newer versions of the software listed will be supported only when they have been certified by PeopleSoft/Oracle and IDM.

Employee Self Service Minimum

Table with 2 columns: OS, Browser. Rows include Windows, Mac, Supporting Software (PDF Documents) and their respective versions.

- Resolution: Minimum resolution of 800 x 600
• Internet Speed: 56K modem with Internet access
• JavaScript: Enabled
• Cookies: Enabled

Central Office & Managers Minimum

Table with 2 columns: OS, Browser. Rows include Windows, Mac, Supporting Software (MS Office, PDF Documents) and their respective versions.

- Resolution: Minimum resolution of 800 x 600
• Internet Speed: 56K modem with Internet access
• JavaScript: Enabled
• Cookies: Enabled

* UPK "Do it" mode not supported in Firefox

◇ UPK not supported in Safari

Pop-Up Blocker

As the University moves to version 9.0, UPK, and web functions within and associated with the HCM Application will be impacted by the browsers pop-up blocker. It is suggested that the local desktop environment be configured to allow for pop-ups in these cases.
