

Chancellor

The University of Massachusetts Medical School Worcester, Massachusetts

The President and the Board of Trustees of the University of Massachusetts announce a national search for the position of Chancellor of the University of Massachusetts Medical School (UMMS).

The Chancellor is the Chief Executive Officer of the Health Sciences campus which, in addition to the School of Medicine, includes the Graduate School of Nursing, the Graduate School of Biomedical Sciences, the Massachusetts Biological Laboratories, and Commonwealth Medicine, a public, non-profit consulting organization. The Chancellor also is responsible for administration, external affairs (including governmental, community and public relations), business and fiscal affairs, and development activities for the Health Sciences campus.

UMass Medical School is one of the fastest growing academic health centers in the country and has built a reputation as a world-class research institution, consistently producing noteworthy advances in clinical and basic research. The Medical School attracts more than \$189 million in research funding annually, 80 percent of which comes from federal funding sources. UMMS is the academic partner of UMass Memorial Health Care, the largest health care provider in Central Massachusetts. The excellence in primary care education at UMMS is reflected in the Medical School's perennial ranking as one of America's Best Graduate Schools by U.S. News & World Report. UMMS also has a unique level of partnership with the Commonwealth of Massachusetts, ranking first among American medical schools in state contract and related revenues.

UMMS has recently launched a number of bold new initiatives, including the UMass Advanced Therapeutics Cluster (UMATC), a focal point of Governor Deval Patrick's \$1 billion Life Sciences Initiative. The development of the UMATC will be the centerpiece of a substantial expansion of the faculty of the school and has catalyzed the planning of a new 500,000 square foot campus facility. The school is also committed to comprehensive curricular reform and its first significant enrollment expansion in 30 years.

UMMS is one of five campuses that make up the University of Massachusetts. Other campuses are located in Amherst, Boston, Dartmouth and Lowell. The Chancellor of UMMS is appointed by the Board of Trustees of the University of Massachusetts, reports to the University's President, and serves as a member of the President's Cabinet.

The Search Committee seeks candidates with a significant record of accomplishment in academic medicine and administration; a superior understanding of the environment required for the highest levels of attainment in clinical care, health professions education and biomedical research; a strong record of working with diverse and highly qualified faculty, students and staff; demonstrated capacity to represent the campus compellingly with prospective donors and alumni as well as to lead a substantial fundraising campaign and marshal the support of the alumni community; and related professional achievements or academic qualifications commensurate with a medical campus chancellor appointment. To be successful, the Chancellor will work collaboratively and look for synergies with the other Chancellors within the University system as well as with the UMMS many clinical and research partners.

Inquiries, nominations, and applications should be directed in confidence to:

Philip Jaeger, Managing Associate, ISAACSON, MILLER
1875 Connecticut Avenue, Suite 710, Washington, DC 20009

202.682.1504. E-mail: 3672@imsearch.com. Electronic inquiry and submission of credentials strongly encouraged.
